# Aristelle RTA Cabinet Line

## Affordable Luxury

ARISTELLE "RTA" cabinets were created by a team of innovators at Concore, driven by a passion for bringing the latest ready-to-assemble kitchen and bath technology to the market at a competitive price. FINE CABINETS

ARISTELLE

## Cabinet Structure

Each RTA cabinet is meticulously constructed using the highest quality materials, featuring a cam-lock system for easy assembly. Every drawer, door, gable, and screw is crafted to ensure durability and excellence.

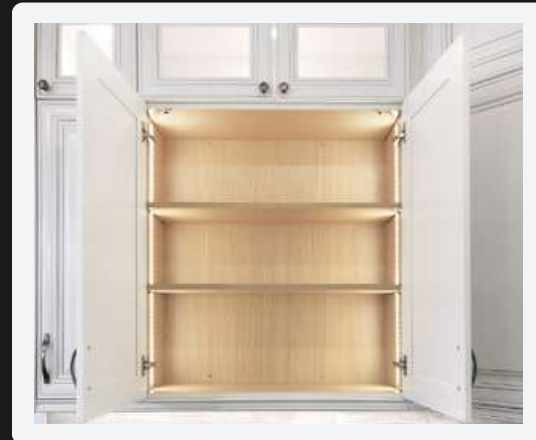

## Dovetail Drawers

Our solid wood drawers, crafted with dovetail joints, offer full accessibility and exceptional durability.

## Frameless Cabinetry

Frameless cabinetry, also known as "full-access" cabinetry, offers superior accessibility by eliminating the face frame. This design maximizes storage space, providing more room than traditional framed RTA cabinets.

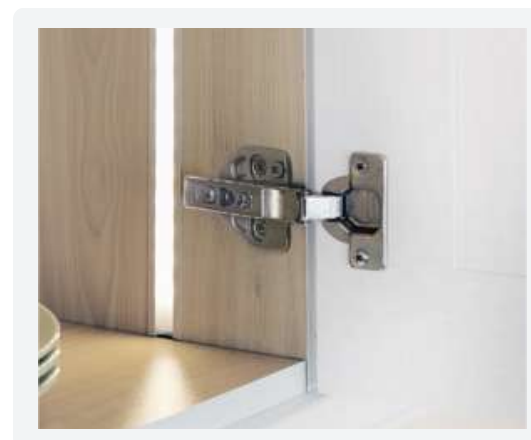

## Drawer Glides

Our anti-slam undermount drawer glides feature a quiet close mechanism and clips for easy removal, ensuring smooth and silent operation.

## Box Material

Our cabinet boxes are made with 3/4" Baltic birch plywood core using advanced "PRO-PLY" technology. The scratch-resistant, moisture-proof interiors have a maple texture, ensuring a stunning look and durable structure built to last a lifetime.

## Maple Wood Door

Maple wood doors are a premium choice for kitchens due to their sturdiness, durability, and eco-friendliness. "AMERICAN-STANDARD" soft-close hinges are concealed, 6-way adjustable, and have a 110-degree opening angle for maximum convenience and flexibility.

# Kitchen Collection
